

# Primaelux® light® LED 36W Class I

**ALSO AVAILABLE WITH  
BATTERY IN 21W**

Visit our website  
for more information:  
[www.boselektro.com](http://www.boselektro.com)

Our new generation of LED fittings make use of the latest COB technology. Multi LED chips are grouped to form 1 light source.

- Greater efficiency from 1 light source and a lower chance of dazzling.
- Higher lumen output per watt.
- Longer life as a result of lower working temperature.

COB technology, in contrast to SMD LED, makes use of a larger LED, which produces a powerful light beam. As a result, it is possible to create a beam that is virtually equal to that of the traditional halogen spotlight.

- Class 1 IP 54
- Sustainable lighting, green label certification
- Adjustable bracket for correct positioning
- Rubber buffer strip and plastic handle

- With built-in socket 2p+earth 16A, only with the 36W
- On/off switch at the back
- Full aluminium housing
- Good light dispersal

Models come with 5 metres of H07RN-F 3x1.5 qmm. and moulded plug. The fittings are supplied in a full-colour pack in 4 languages with instructions enclosed.

- 21W with emergency 10W LED powered by battery, burns for approx. 120min.
